EDUCATION

School of Engineering, National Autonomous University of Mexico

Coyoacán, Mexico City, Mexico

Computer Engineering

August 2019 - Present

- Member of the 1st generation of the Competitive Programming Club, where I am preparing to participate at *ACM ICPC* competition in 2022.

“Justo Sierra” National High School, National Autonomous University of Mexico

Eduardo Molina, Mexico
City, Mexico

August 2016 – April 2019

PROGRAMMING LANGUAGES AND TECHNOLOGIES

Proficient at C/C++ and Python programming languages.

Learned Javascript, HTML, CSS, using React js as main library for web development.

Experienced with Git, Node, Socket.io, Typescript, Bootstrap, Heroku CLI, MongoDB, Postman and Unix/Bash.

SELECTED PROJECTS

Weather App

Console Application

[Repo](#)

June, 2021

- Implemented a console app that fetches data from Mapbox and OpenWeather API making use of Nodejs.

Coffee Shop

Rest API Service

[Repo](#) | [Link](#)

July, 2021

- Implemented a web service with Nodejs and Mongo DB as non-relational database to create a helpful restAPI prototype.
- Designed using Oriented-Object Programming.

Covid Tracker

React Web Application

[Repo](#) | [Link](#)

March, 2021

- Programmed a web application using React and React hooks to extract real time information from the covid19 mathdro API.

Sorting Algorithms

Efficiency Comparison Console Program

[Repo](#)

March, 2020

- Implemented sorting algorithms to compare their execution times from all of them using large datasets.

LANGUAGES

- English
- Spanish (Native)

INTERESTS

Sports: Basketball, Soccer, Football, I am passionate about sports.

My favorite books: *El esclavo*, Anand Dilvar. *How to win friends and influence other*, Dale Carnegie.

AWARDS

Top 10 on scoreboard in Google@UNAM 2021 Contest.
